Participate in BANGLADESH WOOD SHOW 2018 and showcase to the Bangladesh Furniture Sector

Bangladesh is manufacturing a sizeable amount of quality and world-class furniture. The domestic furniture market is growing at a brisk pace of around 20 per cent a year. Consumers prefer local furniture to foreign manufactures these days, say industry insiders. More than 3,000 manufacturers are currently working in this sector. More than 20 lakh people are employed in this industry. Closing down of Chinese Factories are seen as golden opportunity for the sector in Bangladesh to increase exports.

Furniture manufacturers have been using innovative designs, sophisticated machineries, and other materials to grow and establish the industry. Raw materials, such as wood, hardware, finishing materials, and others are imported. This provides more scope to use new technology and innovations. Solid wooden furniture, board furniture and steel furniture are the popular categories.

Visited by all the stakeholders of the furniture and woodworking sector in the country BANGLADESH WOOD SHOW 2018 is the only focused International Tradeshow on Wood & Woodworking Technology .

Increasing presence of International companies over the past 3 editions reflected the scope for Woodworking Machinery, Furniture Hardware, Fitting & Fixtures, Panels & Plywood, Powertools, Particle Boards, Wood Composites and Coatings.
